

5 – 4 Developing ACE Curriculum for College Degree Programs

This workshop will explore ways to adapt current ACE training plans and curriculum to meet outcomes equivalent to those of Grade 12-University Preparation secondary school credit courses while maintaining the flexibility of individualized Academic Upgrading learning. English, mathematics and chemistry will be discussed.

Presenter : Elizabeth Charters (Elizabeth.charters@senecac.on.ca)

Elizabeth Charters has been teaching Academic Upgrading on and off since 1989. She has a B.Ed. and M.Ed. and, as well as LBS and OBS English, has taught Grade 12 Academic English, OAC English, and College English for Technology and Pre-Apprenticeship students.

Presenter: Sorina Zota (sorina.zota@senecac.on.ca)

Sorina Zota has been teaching Academic Upgrading on and off since 2001. She holds a B.Sc. and a Ph.D. in Physics. She has taught Statistics, Basic and Advanced Mathematics to Business and Engineering college students as well as LBS/ACE Mathematics and ACE Chemistry
